# Knut Götz

## Platform/Cloud Engineer

**About me** I'm in my thirties and my professional evolution has seen me transition from a backend developer to a dedicated Cloud/Platform engineering role. I am looking forward to work with a team which shares my interest in cloud and container technologies and is aiming for constant improvement while maintaining its standards. I consider myself a team-player who is eager to learn new stuff and is always up for a laugh.

## Experience

### September 2020 - Now, Cloud Engineer, Freelancer

- migration of a e-commerce platform from an on-prem datacenter to GCP/Azure in an international Team (Terraform/Terragrunt, K8s, Helm, Prometheus, ArgoCD, GHA, Cloudflare)
- day two operations of a GCP/K8s based stack for a large german publishing company (Terraform/Terragrunt, Linkerd, Prometheus, FluxCD, Vault, External Secrets, Renovate, Keycloak, Fluentd, GHA, CUElang)
- development of several in-house applications for my customers (Golang, Python, Bash)

### September 2019 - Aug 2020, Software/DevOps Engineer, Silpion IT-Solutions

- migration of the software stack of a medium sized car rental service from an on-prem datacenter to Azure (Terraform, K8s, Helm, Ansible)
- web Development for a medium sized car rental service (PHP, Symfony, JS, MySQL)

### Oct 2016 - Aug 2019, Backend Software Engineer, Zeit Online

- Python Backend-Development for various services connected to zeit.de (Pyramid, Zope, Flask, JS)
- Provisioning and maintaining existing on-prem infrastructure (chef, terraform, ELK, Zabbix)

## Education

### Oct 2012 - Oct 2016

B.Sc. Computer Science (1.5), University of Hamburg, Bachelor thesis: "Development of a framework for georeferencing textual data sets"

### Oct 2007 - Feb 2012

B.A. Philosophy, minor Economics (1.7), University of Hamburg
